## Andy Oliva Knocks Bandit "Cuckoo," 2 More Run

Co-Operative Store Staff Engages in Bloody Battle With Three Young Bandits—Capture George Kroesing and Two Revolvers From Gang—Two Get Away After Fierce Fight

STORE of Coleman Co-Operative Association, formerly owned by Coleman Trading Co. The armed trio entered the warehouse at the back of the store. It was there a fierce fight took place, in which another of the trio was mauled and disarmed, and J. Kapalka hurt.

To the manager of Coleman yet been cleared. Standing along Co-Operative Association, Andy said him was Joe Kapalka, store clerk, and plucky Joe Kapalka, clerk.

The first intimation of anything unusual was hearing a command to "stick 'em up!" I arose and saw a masked man about six feet tall gun wrestled from him, capturing a gun from another bandit, and putting to flight two others who accompanied Kroesing and who attempted to hold up two other employees.

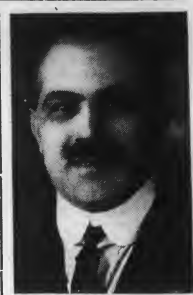

Kroesing, now under an eight-day remand, after appearing before Police Magistrate Gresham in Blaimore on Monday morning, will undergo a preliminary trial in Coleman, following which he will probably be committed for trial in a higher court. The maximum penalty is a life sentence and lashes. Kroesing has an unsavory record. He engaged F. O. McKenna, barrister, of Pincher Creek, to appear for him on Monday, but it is not known if he will continue as defence for Kroesing, as it is rumored he may not act.

He was employed as a timber packer at International mine since Aug. 7, 1935, a job requiring considerable strength. It is suspected that other robberies covering a year or more have been committed by the same gang which ran into a snag on Saturday night.

### Story of Hold-up

Andy Oliva, manager of the store, outlined the occurrence as follows:

About 8 p.m., prior to closing the store, after a busy day, he was sitting at his office desk, the safe door being open, and with about \$600 on the desk which he was checking, and \$400 in the safe. The cash registers in the store had not

ANDY OLIVA  
Co-Op. Store Manager, whose cool-headedness and quick action disarmed and captured much wanted criminal.

### Canadians Annual Banquet

Coleman Canadians annual banquet will be held in the Grand Union hotel on Friday, March 27 at 8 p.m., admission \$1.00. The annual general meeting and election of officers will be held immediately after the banquet at 9 p.m. to which admission will be free. Everyone interested is invited to attend.

### Ladies Auxiliary of Canadian Legion Hold Banquet

Last Friday evening in the Oddfellows hall a very nice banquet, attended by about 50 ladies and members of the Legion, proved a very enjoyable affair. Bert Garrett, president of the Legion, proposed a toast to the ladies for their kindness, which was replied to by Mrs. Walter Williams, past president, who was also the recipient of a past-president's jewel.

Taking part in the program were Mrs. Martland, Mrs. Williams, Isadore Raymond, Bert Garrett and Peter Smith, who each sang songs, while Dan Waddington played the accompaniments and gave several piano selections.

A dance after the banquet provided an hour or more of enjoyment, the gathering breaking up about midnight, everyone well pleased.

### Will Entertain Visiting Choir

The Welsh Society members will be hosts at a social to be held in honor of the visit of the Romilly Boys Choir on Tuesday evening. It will be held following the evening concert, in the Knights of Pythias hall.

### Acquired Office

Visitor: "Where's your secretary?"  
Boss: "Oh, she's my treasurer now."

Visitor: "How's that?"  
Boss: "Oh, I married her."

dered what it was all about. Coming over to where the struggle was proceeding, he was quickly knocked out by a surprise kick in the stomach, and he couldn't tell who did it.

### CROWS Nest Pass mining

towns depend largely on C. P. R. coal orders for work and wages. Tradesmen also depend on the business of those who mine coal. Then why use trucks to bring in merchandise? It is as shortsighted and foolish as the fellow who killed the proverbial goose that laid the golden eggs.

## Canadian Legion To Hold Carnival In Early Summer

Initial Step Towards Raising Funds to Establish Club for Ex-Service Men

The Legion is calling a special meeting for Sunday to further discuss carnival arrangements, and to hear the report of the building committee in regard to securing premises for a licensed club.

A proposal is under consideration to purchase a suitable property, and fix it up as a headquarters for the ex-service men. An expenditure of about \$5,000 will be required as an initial step and the executive of the Legion have been assured good support by ex-service men in their undertaking.

Various committees have been appointed for the carnival, with Walter S. Purvis as director.

## Why Mounted Police Do Not Act

Information from the mounted police regarding policing of Coleman is to the effect that all cases originating within the town limits are to be dealt with by the town police, the mounted police co-operating when required. Therefore unfavorable criticism is not justified for apparent lack of action in town cases. They have no authority to take charge of town cases.

This shows the necessity of a complete show-down with the authorities at Edmonton in order that Coleman have a police detachment established here. Sergeant Cawsey has five men at Blaimore, and two automobiles. Blaimore and Coleman each has a town constable.

## Frequent Disorders Arouse Ire of Citizens

Urge Stationing Here of Mounted Police to Cover Town and District—Complaint of Inadequate Policing.

Two or three Coleman men were picked up on Saturday evening by the mounted police and fined at Blaimore before Magistrate Gresham. How is it that for local offences court is not held in Coleman? Is the R.C.M.P. policing this town, the town police, or who? That's the question which should be clearly defined. Two or three fights on Main street Saturday night progressed merrily. Pay nights invariably see a number of quarrels develop which should be stopped — if there are police around. It looks as if the town is in the Toonerville Trolley class, with "Marshal Otey" in charge. Angelo Gentile, bartender at Coleman hotel, received a "shiner" in ejecting two men on Saturday night. Another fellow was seen groping in the snow and mud like a quadruped. What with animals running at large, robberies, drunks, and other disorders, it certainly indicates the need of more thorough police work. Edmonton turns a deaf ear every time a request is made to station a policeman here, instead of having a bunch stationed at Blaimore. Representations are again being made to the Attorney-general through E. O. Duke, M.L.A., and Rev. Roy C. Taylor, M.L.A., who was interviewed on Monday concerning it while home for the week-end from Edmonton.

Mr. Duke stated by telephone he had placed the town's request before the attorney-general, who promised action.

## Mayor Hands Out Straight Talk

"If the provincial government is going to reap profits from its liquor traffic, then they can pay the cost of policing and rounding up the drunks," stated Mayor Pattinson on being interviewed on the lack of mounted police control and neglect of carrying out the duties for which they are employed by the government. Lack of co-operation has reached the point where government action will have to be taken. "There will be a show-down between the town and mounted police," stated the mayor. He will have the public right behind him, too.

## Tom Ewen Addressed Public Meeting

Advocating One Union for All Miners in Alberta Under U. M. W. A.

In the Palace theatre on Sunday evening, Tom Ewen, Dominion secretary of the Workers Unity League, addressed a small audience urging the miners to solidify their ranks in one union. He did not refer to any of the Communist phases of the W. U. L., with which the Mine Workers Union of Canada affiliated a few years ago.

The W. U. L. official is endeavoring to have the movement for a solid union sponsored by the Alberta Federation of Labor. A collection was taken to defray expenses. Ewen has been addressing meetings in the Pass towns and other Alberta points

# 'SAVANA' TEA

is delicious

Why Not a Holiday?

"Get away from your work and take a holiday" is a prescription frequently handed out by members of the medical profession to the jaded city office worker. The advice is usually based on the prediction that the eternal grind of routine work day in and day out, week after week and month after month has impaired the nerves and that change of scenery and new activities is all that is required to steady the nerves and tone up the flagging system.

Excellent advice unquestionably, but surely as applicable to the man and the woman on the farm and to the small town or village merchant or worker as to the denizens of the larger centres.

As a matter of fact the former to-day are probably in greater need of the recuperative benefits of change of scene than are the latter for the very good reason that no one has sustained a continuous barrage of hard knocks and trying conditions more than the man on the land and his family who have withstood a tremendous and prolonged siege against the combined forces of economic and agricultural depression.

The farmer and his wife and the occupants of the small towns and villages have been the shock troops of a terrific encounter with overwhelming forces for a long period. They have been the closest to the conflict and have borne the brunt of the fray for a term of weary years.

No one can undergo such a lengthy strain without feeling some deleterious effects on the nervous system and the physical frame and it would be more than surprising if tempers have not become frayed and health, if not visibly impaired, at least threatened under such an ordeal.

Such being the case, it is not at all amiss to suggest that the time has come when the workers on the prairies should take a well-earned holiday this summer even if it has to be limited to a week. True, it may be difficult to arrange for the necessary care for livestock and other things which must be provided for in the absence of the family from home, but such obstacles can usually be overcome with a little ingenuity and planning.

Objection might also be raised that it costs money to go away on a vacation and that there is so little of this commodity available as a result of the pressure of economic conditions of the past few years. Perfectly true, but here again the difficulty is not insuperable, except perhaps in extreme cases for, under present day circumstances it is possible to contrive a holiday with very little expense.

For the majority of prairie residents the conveyance problem is already solved. There are few who do not either own or can get the use of a car or truck, even though it may be of ancient vintage; and where these are not available there is at least a wagon and team.

A car and a tent or a truck or wagon and tarpaulin, available, the twin problem of transport and temporary housing are solved. As for the question of sustenance this also is not difficult of solution on the prairies in the summer time. Some commodities can be carried along on the trip and others can be procured from small town merchants and farm houses at not greater cost than if they were purchased at home.

About the only additional expense of such a holiday trip is the cost of gasoline and oil, if auto or truck is used, and this can be kept to within reasonable limits if the vacationist curbs the temptation to travel long distances and burn up road mileage at great speed. One does not have to go far from home to find new and interesting things and the leisurely pace is the one that affords the most beneficial results.

Such a holiday should yield dividends in improved mental and bodily health and it may be said to give educational returns to all members of the participating family. The alert vacationist will inevitably pick up some idea on such a tour which he can put to practical use on his return home. Contact with new minds will invariably result in broadening the outlook on life and incidents and scenes will be absorbed and cherished later. Incidentally, and as an aside, a camera, if one is available, may be made a valuable adjunct to a vacation trip.

Much more might be said about the virtues and values of a holiday. Suffice it to say that the man and his family who take a little time off for a change of scene and use the time sensibly will reap dividends that cannot be estimated in dollars and cents.

Early planning, too, has its advantages. Apart from the pleasure of anticipation it will provide, planning ahead will ensure proper provision against contingencies and enable the adventure to be taken with peace of mind, an important concomitant of a real vacation.

## Perfect Courtesy

A certain middle-aged spinster has a vivid memory of Texas courtesy.

She was struggling with a hot cup of coffee in a small-town railway station, trying to get it before the train pulled out. A cowboy, seated a couple of stools away, noted her plight, and seeing the guard waving to the woman, came to the fore.

"Here, ma'am, you can take my cup of coffee. It's already sauced and blowed."

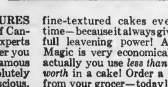

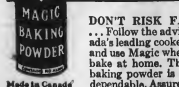

A forwarding agency in Tokyo advertises: "Hand your luggage to us. We will send it in all directions," while a shop-sign in Seoul, Korea, reads: "J. K. Blank—Bread Baker. The Best Loafers in Town."

## Storm Upsets Salvage Scow

Within an hour of its destination, a scow, masted topside by heavy incrustations of ice, turned turtle in Hecate Strait, off the coast of British Columbia, and dumped into the sea \$3,000 worth of machinery which had been salvaged at considerable expense from a dismasted sawmill at Queen Charlotte city. The scow, recently overhauled at a cost of several hundred dollars, was being towed by the power-tug Daily when a strong northeast squall proved too much for it.

Newspaper correspondents, when first invading Ethiopia last fall discovered none of the natives had heard of the World War.

## NEVER TOO YOUNG TO LEARN

## Speed Limit Of Planes

Only 375 Miles An Hour With Present Wing Design

With the present design of wings, airplanes will be limited to a speed of about 375 miles an hour, Dr. George W. Lewis, director of research of the National Advisory Committee for Aeronautics, showed at a special meeting of the Institute of the Aeronautical Sciences that was held in the New York Museum of Science and Industry in Rockefeller Center. At this speed, Dr. Lewis said—and he showed motion pictures to prove the point—the sustaining flow of air over the top of the wing suddenly breaks away in a "shock wave" and the airplane loses all its lift.

## WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of fluid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up in your stomach. You get constipated. Harmful poisons go into the body and you feel weak, sick and the world looks pink. More bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes these good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up." Harmless and gentle, they make the bile flow freely. They do the work of nature but have no color or mercury in them. Ask for Carter's Little Liver Pills by name. Stubbornly refuse anything else. 25c.

## Killed By Peculiar Accident

Visitor To Australia Victim Of Vicious Shell Fish

Stung by the beautiful but vicious cone shell of the coral reefs, a visitor to the Barrier Reef, on the Queensland Coast of Australia, has died in agony. He is the first white person to meet death in this way. The victim picked up a live specimen of the shellfish, which is covered with a thin skin. Holding it in his hand, he commenced to scrape it with a knife, when it stung him. The wound was deep and punctured his palm. Some time later he complained that his eyesight was failing. Subsequently he lapsed into a coma and exhibited all the symptoms of snake bite. He was rushed to the mainland, but died soon afterwards.

## Famous Diamond Polished

Koh-i-Noor Taken From Buckingham Palace For Regular Cleaning

The Koh-i-Noor, the most famous diamond in the world, has just had its annual bath. A dapper little man drove up to Buckingham Palace in London. Five minutes later he emerged with two plainclothes policemen. They jumped into the waiting taxicab and drove off to Commercial Road E. There the famous jewel was placed in the hands of one of the greatest experts in the washing and polishing of diamonds. Later in the same day the Koh-i-Noor was taken back to its safe near the Queen's bedroom.

## Men Had Swift Ride

Australians Sure Stream-Liner Train Could Not Compete With Whale

Riding on a streamlined train has nothing on that at the end of a rope attached to an angry whale. This is the opinion of W. Edwards and J. E. Eley, fishermen of Goff's Harbor, Australia. While they were fishing near Goff's Harbor the anchor of their launch floated a large whale, which, as a result of a moderate recession in food prices, the Dominion bureau of statistics reported. The food index was 72.9 against 73.9 in January. Increases in eggs, butter, lard and pork were more than offset by declines in all other meats and potatoes. Coal and coke prices were slightly higher, as were also those for gasoline.

Shipping Logs To India

A ship left Vancouver in a recent week for South Africa, carrying a consignment of aspen logs for India. These logs, cut at Lesser Slave Lake, Alta., will be used for making matches in factories in India.

Narwhal whales develop, but one tooth, which is used as a battering ram to break holes in ice. 2143

## New Health Body At Work

Campaign For The Universal Pasteurization Of Milk

For a number of years now the Social Hygiene Council, indefatigably led by Dr. Gordon Bates as general director, has been performing a national service in this country that is beyond all praise. Feeling the need, however, of giving this organization a still wider scope, it has been reorganized during the past few weeks and now stands forth as the Health League of Canada. Fortunately Dr. Bates still remains as general director, but the presidency has been conferred upon the Honorable Mr. Justice Riddell of Toronto.

Powerful support was given to this reorganization by the presence of the Governor-General, Lord Tweedsmuir, who urged that there should be active co-operation between public and health authorities and that every individual should give greater attention to public health in the future than in the past. With a new government and a new minister of health at Ottawa this renewed stimulus to public interest should be alike a help and an inspiration.

Dr. Bates has announced as one of the first objectives of the new body a national campaign for the universal pasteurization of milk that has just been launched. Pasteurization has to overcome the same kind of prejudices as vaccination, for instance, had to do at one time; plus the opposition of those who conceive it to be contrary to their commercial interests. The need for educational propaganda is clearly indicated. Sooner or later, sooner than later, it is to be hoped—this campaign, will bear fruit from which the people of Canada will reap the benefits.—Quebec Chronicle-Telegram.

## Island Loses Its Queen

Small But Fearless Ruler Of Tory Island Is Dead

With the death of Mary Herrierty, only three feet high but proud and fearless, a wild, desolate island off the Donegal Coast, Irish Free State, has lost its ruling "queen" and most dominant personality.

On Tory Island, where customs have not changed for centuries, it was the word of Mary Herrierty that went as law. The tallest, strongest men on the island did not dare refuse her bidding.

Her little domain was but one of many small islands "kingdoms" along the coast of Ireland; islands where Gaelic is spoken rather than English, and where the women still wear the shawl and old Irish hook cloak.

Many of these islanders have for generations elected a woman rather than a man as their chief. The Claddagh people on the Galway coast have always elected a "queen" and man has yet to "rule" over the people there.

## New To Science

Australian University Has Three Animals From New Guinea

Three specimens of animals brought from an island off the northwest coast of New Guinea to Professor Wood Jones, of Melbourne (Australia) University, had to be introduced to science. Two are only caracaras but the third, a lively lot of white fur, keeps itself daintily alive on banana passion-fruit, fish, milk and honey, and an occasional paw-paw or carrot. It is a small marsupial, with some slight similarity to a rare species in the tropical part of Australia.

Although tuberculosis is being fought valiantly and the death rate is lower, the disease is considered still the greatest public health problem of the country.

So minute are tobacco seeds that a thimbleful will furnish enough plants for an acre of ground.

## KIDNEY TROUBLE

will result in headaches, backaches, broken sleep, and a tired, listless feeling during the day. At the first indication of any of these symptoms, take GIN Pills for prompt, safe relief. You'll feel better, look better and sleep sounder.

Remember the name **GIN PILLS** FOR THE KIDNEYS

DIXIE is the thrifty man's smoke. You cut it as you use it and the plug remains fresh to the last cut.

## Famous Underground Depot

Used By Escaping Negro Slaves During Civil War

History's famous "underground railroad" has lost its "depot." This was a three story brick building in Cincinnati in use before and after the civil war in aiding the escape of Negro slaves. After crossing the Ohio river the fugitives made their way through a tunnel to this building.

The structure, more than 100 years old, is now being demolished to make way for a gasoline station.

The foundation wall of the building carries the evidence of a wall over six feet high and 4 feet wide. Similar indications of an underground passageway are apparent on the foundation walls of several of the other buildings for three blocks west of the old brick building.

Old-timers insist the tunnels were built by slaves who escaped from southern plantations. They were usually concealed beneath loads and transported in wagons.

The term "underground railroad," supposedly, resulted from the tunnel to the old brick building. There opponents of slavery supplied the runaways with food and clothing.

In the basement of the building is a space, 20 feet long and 10 feet wide, fitted entirely with rock. Investigators have been unable to learn the significance of the rock. Old residents of the 6th street commission district, where the building is situated, hope the razing of the building will clear up the mystery.

## SELECTED RECIPES

### CHERRY ROLL

Temperature: 425 degrees F.  
Time: 25 minutes  
1 1/2 cup "Crown Brand" Corn Syrup  
1 pint jar cherries (canned)  
1/2 cup sugar  
1 teaspoon cinnamon  
1 cup boiling water  
1 tablespoon butter  
Ten biscuits batter

Drench cherries and pour juice in a saucepan. Add the water, sugar and "Crown Brand" Corn Syrup. Boil 5 minutes. While the syrup is boiling make an ordinary tea biscuit batter and roll it out in oblong roll. Spread the cherries over the dough; butter and roll up like jelly roll. Place the roll in an oblong pan; pour the hot syrup over it and bake in a hot oven.

## Punished For Eight Weeks

Flying License Suspended When British Pilot Broke Regulations

What is believed the first case in England of an aviator having his flying license suspended has been meted to Pilot Officer B. R. Ker, of South Wood, who made a solo flight from Newcastle to Oslo, Norway, and back in 11 hours five minutes. The flight was made in secrecy. Ker left Woolington Airport, however, passing through any Customs formalities. As this was a breach of regulations, the Air Ministry was obliged to take some form of action, but in recognition of Ker's enterprise and the value of his achievement, that action was applied in the mildest possible form, a withdrawal of his flying license for eight weeks.

## Trio To Explore Greenland

Scientific Research Is Purpose Of Three Young Frenchmen

Three young French scientists, guided only by a sextant and compass, will have the 40-below-zero blizzards that sweep across Greenland to explore its little-known and uninhabited interior this summer. The trio will travel by dog-train from Kristianshaab on the island's west coast to Angmagssalik on the east coast, a distance of 530 miles.

Scientific research is the avowed purpose of the expedition, backed by the French government. The explorers will leave for Kristianshaab early in April.

Each man will mush behind a 25-foot sled loaded with 770 pounds of supplies and pulled by 12 dogs. The trip would be impracticable, said Victor, unless the dogs were used both as draught animals and food. They expect to arrive at Angmagssalik with one sled and only eight dogs.

## Not A New Term

Word "Radio" Was Used As Far Back As 1898

Radio, the combining form of radios from a Latin word meaning, among other things, a ray, came to be used by itself in a curious way. At a convention drawn up in Berlin in 1896, "radio" was adopted as the distinguishing mark of wireless telegrams, and was so adopted by the United States Congress in 1912. Then when wireless telephony came along, "radio" was used for that, too, and its earlier meaning was eclipsed. A radiogram, however, originally an X-ray photograph or radiograph, and this term was so applied as far back as 1896.—Toronto Star.

## To Make The Sale

We honestly don't believe this little story, but the lady who told it to us says it really did happen up on Madison avenue where the lady was looking at dresses. She found one with lines that pleased her but she was doubtful about the color.

"I wonder if it will clash with this coat?" she said to the assistant. "Absolutely, madam," the girl said. "I'm sure it will clash beautifully!"

## RUN DOWN? TAKE WINCARNIS

If work and worry have got the better of you and you are feeling weak and listless, follow the recommendation of more than 20,000 medical men. Take Wincarnis three times daily. To thousands who once felt as you feel now, this advice has proved invaluable. Wincarnis brings to you all the valuable elements of grapes (2 1/2 lbs. in each bottle), and the strength building content of beef and malt extract. It is not a drug, but a delicious, blood building tonic which quickly soothes tired nerves and builds new wells of energy.

From the time you start taking Wincarnis you will sleep better, wake more cheerfully, and feel more nearly as you should. You will know, then, how wonderful it is to be on the road to sustained, vigorous health. For those who are run-down, or who suffer from ragged nerves, insomnia, anemia or debility, Wincarnis is a marvelous tonic. X-ray Wincarnis from your druggist today.—Sales Agents: Harold F. Ritchie & Co. Ltd., Toronto.

## Floods Cause Great Damage To Property In Eastern Provinces

Montreal. — New flood outbreaks were reported in New Brunswick and Quebec late Sunday after first weekend reports indicated menace from rising waters was about at an end.

In New Brunswick a power dam at Grand Falls was reported in danger from the St. John river, which, 140 miles further down stream, had caused widespread distress at Margerville.

A huge ice jam at Quispisis also caused concern. Containing 1,000,000 feet of logs, the jam was backing up water fast with ice cakes 50 feet square swirling past Edmundston.

The St. Leonard-Van Buren international highway bridge into the state of Maine, a short distance above Grand Falls, and the second Green river bridge were also in danger.

The St. Leonard-Van Buren international highway bridge is a three-span steel structure built on concrete pillars and with a concrete floor. Water had risen to within four feet of the flooring and was rapidly gaining.

The Grand Falls dam power station supplies the paper mills at Dalhousie, N.B.

The Maskinonge river in Quebec went on a wild rampage following the smashing of an ice blockade. Blocks of ice tore their way through long storeroys of a flour mill, sawmill, wool carding mill and bottling factory, causing damage of between \$20,000 and \$25,000.

Government rescuers discovered great distress in the little settlement of Margerville, New Brunswick, isolated with water up to the second storeroys of many homes built on low-lying ground.

Pressing with great difficulty by boat through swift river water, ice cakes, trees and other debris, the party entered all homes they could reach in the village, 20 miles from Fredericton.

They rescued Mrs. Bernard Cook and her three young children from the attic of their home where they had been two days, and took other stranded residents from their homes. Reports sent back indicated there was no loss of life.

Bodies of horses, cattle and foxes floated in the water. Families were separated when some members were trapped in neighbors' homes while visiting, and two nights of horror were experienced by many in the cold upper parts of their homes, often without food and drinking water.

### Sailor Killed By Explosion

Gibraltar. — A British sailor was killed and eight others, including an officer, were injured when an unexpected explosion occurred aboard the 1,100-ton destroyer Westcott, during fleet exercises in the Straits of Gibraltar. Authorities decided to give further details of the accident. All the injured were placed in a military hospital here.

## Would Curtail Any Increase In Alberta Coal Production

Ottawa. — Curtailment for the next five years of development work designed to increase production was urged on the Alberta government in the report of Sir Montague Barlow, English expert, who investigated the province's coal industry last fall.

Sir Montague, in the course of recommendations calling for increased subsidies, fixed freight rates for a period of five years, improved marketing and working conditions and publicity, advised the government to refuse, save in exceptional circumstances, to grant new leases of mineral areas during the period suggested.

Hon. C. C. Ross, Alberta minister of lands and mines, in the course of a paper read before a meeting of the Canadian Institute of Mining and Metallurgy, made public a summary of the report. Sir Montague came to Canada last fall under an arrangement entered into by the former United Farmer Government of Alberta which was replaced by the Social Credit administration before the inquiry opened.

Coal, natural gas and petroleum

### Prominent Westerner

George M. Bell, Newspaper Publisher, Dies In Calgary

Calgary. — Prominent western Canadian newspaper publisher and financier, George M. Bell, president and managing director of the Alberta Publishers Limited, died in hospital here after a brief illness. He was in his 52nd year. Death followed an attack of influenza, complicated by a heart ailment.

Publisher of The Albertan, the only morning newspaper in Alberta and official publication of the Social Credit movement in this province, he had been a resident of Calgary since 1926. He was closely associated with mining and oil developments in Western Canada, and pioneered in Alberta and British Columbia oil and gold fields.

In Saskatchewan he entered the newspaper field in 1920 when he became president of the Leader Publishing Company of Regina, and in 1922 president of the Star Publishing Company, Saskatoon. His newspaper interests were further enlarged when he became associated with S. L. Ross, Regina, in founding and publishing the Northern Mail at The Pas, Manitoba. In 1926 he became president and managing director of The Albertan.

Married at Brandon in 1908, Mr. Bell is survived by his widow, two sons and two daughters. His son, Mr. Bell, is business manager of The Albertan.

### Early Start On Land

Alberta Town Sets Record With First Official Report

Winnipeg, Man. — Barnwell, Alberta, sets this year's record for the first official report of work on the land, according to a message received by the agricultural department of the Canadian Pacific Railway.

Spring cultivation and harvesting are becoming general at this point on the Lethbridge division of the C.P.R., just five miles from Taber, which has held the record for some years. First reports in 1935 came from Taber on March 21.

No plowing is reported on the prairie.

### Heads Produce Association

W. A. Landreth Elected President Of Recently-Formed Body

Winnipeg. — W. A. Landreth, Winnipeg, was elected president of the recently-formed Canadian Produce Association at an executive meeting here.

J. W. Skelly, Calgary, was elected first vice-president, and F. Ironside, Swift Current, Sask., was elected second vice-president.

Members on the executive include: J. S. Turnbull, Regina; M. Rodin, Canora, Sask.; A. J. Chorley, Moose Jaw; F. J. Heffernan, Calgary, and B. Weinberg and B. Stanley, Edmonton.

These restrictions would not apply to bona fide development of existing mines which would be carried out in the ordinary course of mine operations.

### Cattle Sales Increase

Heavier Marketing Of Cattle In Western Canada

Toronto. — Heavier marketing of cattle in Western Canada has been shown by stock yard sales for the first 11 weeks of 1936. Alex. G. Hall, of Canada Packers Ltd., told the 18th annual meeting of the Eastern Canada Livestock Union here.

Exports to the United States of beef cattle also showed an increase over the same period of 1935 but shipments to the United Kingdom had fallen off from 4,781 head in 1935 to 1,765 up to March 12, 1936. Mr. Hall said.

Sales on stock yards, Mr. Hall said, for the period ending March 12 show a decrease of 12,475 head in Toronto and Montreal but an increase of 19,516 in the western markets. There had been an increase of 8,202 in shipments from the west to the east in that period.

Meeting in convention earlier the delegates decided to appoint a committee of five in addition to the union's president and secretary to co-operate with a committee from the Western Canada Livestock Union in gathering information and preparing it with respect to inter-empire trade pacts which will be reviewed in 1937.

### Employment For Veterans

Commission Will Be Set Up To Assist In Matter

Ottawa. — Establishment of a Veterans Assistance Commission to assist, among other things, in obtaining employment for veterans, is provided for in a government resolution placed on the order paper of the House of Commons by Hon. C. G. Power, minister of pensions and national health.

The pensions minister has also given notice of legislation amending the War Veterans' Allowance Act so as to give special consideration to veterans of 55 and over but not yet 60 who are unable to maintain themselves.

### Growing In Importance

Canada Going Ahead As Industrial Country States Massey

London. — Canada's growing importance as an industrial country was stressed by Hon. Vincent Massey, the Dominion's high commissioner to London, at a luncheon given by the Canadian Chamber of Commerce in Great Britain.

He believed trade between Canada and the United Kingdom "should form a practical demonstration between the two countries of their regard for and interest in each other," and lauded the economic progress in the Old Country.

### Italy Takes Over Crop

Farmers Must Put Their Wheat In Government Warehouses

Rome. — The Italian government commandeered the entire wheat production of the nation.

It eliminated the "middle man" in wheat dealings through a decree instructing farmers to place their crops in government warehouses and prohibiting millers from receiving the grain from any other sources.

### KING IN UNIFORM

King Edward VIII. wore the uniform of the Welsh Guards when he attended the 21st anniversary celebrations of the regiment in London. We see him, above, entering the parade grounds.

### Roads To Mines

Reasonable Access To Mining Properties To Be Provided

Ottawa. — Promise of reasonable access to mining properties by providing roads in co-operation with the Dominion department of mines and provincial departments was made over to the Institute of Mining and Metallurgy by Hon. C. D. Howe, minister of railways and canals.

Mining industry, he told an institute luncheon, had grown until it was of second importance in Canada as a producer of wealth. Dominion and Ontario mine departments were zealous in placing needs of the mining industry before the government, he said. The department of railways and canals was interested in transportation, railways, canals and to a smaller extent, highways and civil aviation.

His department had a program prepared and was ready to co-operate with the other departments in giving the miners reasonable access to their properties.

### Takes Heavy Toll

Toronto. — In 10,848 automobile accidents in Ontario last year 560 persons were killed and 9,829 injured, according to a summary released by J. P. Bickell, registrar of motor vehicles of Ontario. There were 945 accidents in 1934 when 512 persons were killed and 8,990 injured.

### BRITISH FLIER WINS COVETED TROPHY

Jean Batten, generally conceded to be the most daring and accomplished aviator among the fair sex, is shown above with the coveted International Trophy which she has just been awarded for her solo flight over the South Atlantic Ocean. Miss Batten has made several solo flights across Europe and Asia and has set several long distance flight records.

## Bill To Overhaul Civil Service Act Defeated In House

### Plebiscite Proposed

Would Take Referendum Of People Before Engaging In War

Winnipeg. — A resolution proposing a plebiscite before Canada enters any war except in the case of invasion of the Dominion will be submitted to the Dominion convention of the Canadian Legion at Vancouver by the Winnipeg and district command.

The resolution was passed at the district meeting with representatives of 20 branches in attendance. They represented a membership of 3,000 war veterans.

The resolution, the resolution proposed, should be submitted to the whole population of adult age. In the event of a declaration of war after the referendum, the resolution proposed all adult citizens of both sexes shall be conscripted to the extent of being put only the basis of pay and allowance as soldiers.

Manufacture of munitions of arms and all war equipment should be taken over by the government permanently in order to prevent private profit, the resolution declared.

### King Edward Holds Levee

Several Canadian Officers Among Those Who Were Presented

London. — Two of the officers who represented Canada at the funeral of the late King George V. were presented to King Edward when His Majesty held a levee at Buckingham Palace March 18, the first full state function of his reign.

Captain V. G. Brodeur, of the Royal Canadian Navy, and Wing Commander S. G. Tackaberry, of the Royal Canadian Air Force, were presented along with a number of other officers of the armed forces of Canada, including Capt. Guy Simons, Major James Hunter, Capt. K. G. McCullagh, Lieut. M. J. Foley, Lieut. A. Bennett and Lieut. A. B. Connelly.

Bishop W. T. Hallam, of Saskatoon, as well as Lester Pearson, first secretary of the Canadian high commissioner's office here, and Ross McLean, were also presented.

### Continuing Long Trip

Woman Starts Last Lap To Fairbanks With Dog Team

Tanana Crossing, Alaska. — Duntin, Mary Joyce, 27, and her five-dog team struck the snowy trails on the last 165 miles of her 1,000-mile mush from Tuktu to Fairbanks.

The Taku hunting lodge mistress, making the trip "just for the fun of it," was accompanied by an Indian guide. He will break trail as far as Big Delta, 91 miles from Fairbanks. She will travel the rest of the way alone, as she has most of the time since she left Tuktu, December 20.

### Roosevelt Asks For Billion

Washington. — Congressional leaders were told by President Roosevelt that he would request more than \$1,000,000,000 to continue the work relief program for a full year beyond next July.

Ottawa. — The Boulanger bill to overhaul the Civil Service Act was defeated in the House of Commons after Premier King pledged the government to establish a special committee next session to review the whole legislation.

The prime minister expressed his personal opposition to the main feature of the Boulanger bill, divorcing the whole civil service outside Ottawa from control of the commission and hoped "the government will be supported in that attitude."

The premier finished a short speech a few minutes before the hour for private legislation expired and Dr. Thomas Donnelly (Lib., Wood Mountain) moved adjournment of the debate.

"Question! Question!" demanded the members, seeking a vote on the bill itself.

The adjournment motion was put to the house by Speaker Cagrain and defeated.

Then came the motion on the bill itself. It was buried in a crescendo of "no's." Its supporters were so few in number they could not force a recorded division, only two or three Quebec Liberals rising with Oscar Boulanger (Lib., Bellechase), the bill's sponsor.

The bill would have divorced the outside service from the commission, limited the returned soldiers' preference to residents of Canada at the time of enlistment and changed the system of hiring and firing professional and technical employees.

The prime minister said some of its provisions were commendable and others were not. He did not believe it would promote efficiency to remove the outside service from the jurisdiction of the commission.

Donald McIven (Lib., Regina) said he was prepared to support a motion to refer the whole Civil Service Act to a committee but would oppose the Boulanger bill. It contained considerable merit but certainly could be improved.

The Regina member said he was opposed to any limiting of the returned soldiers' preference.

### Floods Carry Away Bridge

Nine-Span Structure At Fredericton, N.B. Cost \$1,500,000

Fredericton, N.B. — After rising nearly 30 feet above its summer level and more than four feet above the previous record mark reached in 1887, the St. John river was still a serious threat.

Already it has carried away the nine-span bridge of the Canadian National Railways that connects Fredericton with South Devon and provides rail communication with Newcastle and Moncton.

The twisted mass of the \$1,500,000 structure lay some distance downstream but with its destruction came relief to the flood-stricken city.

Water and ice had backed up into the streets to three or four blocks from the river bank rising at the rate of from seven to 10 inches an hour.

Traffic and business was suspended and merchants and private citizens removed their possessions to higher ground.

## Believes Canada Is The Richest Mineral Area In The World

Ottawa. — Belief Canada was the richest mineral area on earth which "our grandchildren's grandchildren will not exhaust," was expressed here by Lord Tweedsmuir, governor-general, to the Canadian Institute of Mining and Metallurgy.

Speaking at a dinner closing the three-day meeting of the institute, Lord Tweedsmuir said mining was no longer a gamble except in its first stage. It specially becomes a highly organized business and an exact science. Up-to-date business methods and every new development in chemical and mechanical science were being used.

One feature about Canadian mining pleased him. "In most mining areas—certainly in South Africa—the prospector, the man who did the pioneering work, did not reap the fruits of his labor. That was left to the capitalist who came after him, who never stirred from his office

chair. But here, not only has the prospector often made the big money, but he has stuck to it."

Mining problems were not new to him, the governor-general said. In South Africa after the war he was compelled to acquire at least a smattering of the question when the future of the gold industry of the Rand was under consideration.

In the few months he had been in Canada, he said, he had seen gold and copper mines in northern Ontario and asbestos mines of Thetford, Que. He hoped to see a great deal more.

"It is a wonderful piece of good fortune for Canada that in these difficult days, when agriculture all over the world is in straits and when normal industries are crippled, you should have found this new source of wealth, much of which can be as readily cashed as a Bank of England note."

THURSDAY, MARCH 26, 1936

## NOTES AND COMMENTS

**FEDERAL** Finance Minister Dunning spoke very plainly in stating that all public services must be paid for by the people of Canada, and the only source of wealth lies in production. All relief costs must be paid for by those whose earnings are taxed. Highway costs, deficits of the C. N. R., governmental costs, all are paid by the people employed.

**PREMIER** Aberhart repeatedly has stated that our "cultural heritage" and natural resources would be the important factors in establishing his Social Credit plan. There is only one source from which dividends, pensions and relief allowances can be paid. That is from production which creates wealth. Millions of tons of coal in Alberta lying dormant will not pay anything. Only when it has been mined and converted into a marketable product can it be of value, and to do this economically the use of large sums of money have first to be utilized in providing mining equipment and payment of wages.

**THE** impression some have that the world owes them a living is entirely wrong. Nature's law is that men must produce in order to live. Socializing of industry it is argued by some would solve unemployment problems. Government participation in business seldom proves successful, and history proves that it is from competition there develops progress. Initiative is developed by competition, and has resulted in eliminating drudgery in many industries and has helped to establish a higher standard of living conditions compared with even 25 years ago.

**PATERNALISM** in governments if carried to the extremes that some advocate would increase instead of decrease the tax burdens, and to relieve the problem of unemployment it would seem that work would have to be more evenly divided. Those at present employed would have to work less in order to provide work for those whom industry cannot absorb. Governments cannot do the impossible, and if lots of free advice were followed on how to run the country, widespread bankruptcy would result.

**HON** Ernest Manning, provincial secretary, presumably speaking for Mr. Aberhart, in his Sunday broadcast, referring to balancing the budget, stated that this can only be done by spending less than governmental revenues. Despite pre-election promises, that dividends would be paid without increasing taxation, the imposition of additional taxes has proved that Alberta must finance on orthodox lines in order to pay its way, and dividends are as remote as ever. Doubtless Mr. Aberhart's faith prompted him to promise many blessings prior to the provincial election, but he would have to perform a miracle on a parallel with the five loaves and two small fishes to fulfil those promises.

"**GOD** is being driven from our homes and churches," stated a local clergyman in his Sunday sermon. "That's why churches are empty," he added. The Salvation Army comes along with a cheery smile and tells of increasing numbers of boys and girls attending its services. It indicates that there must be more than church ritual to draw people to church. So many diverse attractions keep people from church. In the horse and buggy days Sunday church-going was the customary thing, and whereas farmers and their families would drive several miles to church, they now travel right past it in automobiles, while the city and town dwellers fill up the tank and away they go for the day. In the winter they gather around the radio and listen to Jack Benny and Eddie Cantor. It is another problem of our progressive age. Jesus spoke to the people in parables, which still hold intense interest, nineteen hundred years after he spoke them. Human interest appeal is a vital factor cultivated by those who aim to lead.

**SATURDAY** night's sensational hold-up created the usual flock of rumors. Horrifying scenes were re-enacted in which the leader of the bandits was given a crack on the head with a meat cleaver which split his skull in twain. He got a real bashing, but Andy states he used only his fists and the bandit's long barreled revolver which was wrested from him. Andy was quicker on the draw (or the punch) than his assailant, and a couple of good hard fists did the trick. To Andy goes the credit for bringing to an abrupt termination the series of burglaries and hold-ups of a gang living and operating right under the noses of the police.

**RECALLING** the armed hold-up of Distributors Ltd. employees four weeks ago, investigation reveals that the rooms in which Kroesing, the captured bandit lived, overlooked the warehouse and made an excellent observation post. It is not proved of course that his gang held up Distributors, but it looks suspicious in view of subsequent happenings. The Pontiac car stolen Saturday and later recovered would indicate that the gang had attempted to hide it away for future use, possibly contemplating making a haul

### C. P. R. Offers Special Easter Fares

Special reduced round trip fares for Easter travel was today announced by Mr. McKinnon, local Canadian Pacific agent.

Two classes of tickets will be available, single fare and one-tenth, good in coaches, and single fare and one-third, good in parlor or sleeping cars, in addition to the usual seat or berth charge.

These tickets will be available to travel from April 9 until 2 p.m. April 13, and will bear a return limit until April 14.

Using the club to secure advertising is not only unethical, but it eventually proves a boomerang. A certain city paper recently bragged about how many lines of advertising it carried in a Saturday issue. The method it employs is not one that will build goodwill for the paper, though it might profit temporarily from the coercive method of getting the business.

### Notes And Comments (Continued from Column 2)

on pay-day. Their well laid plans went haywire with the "cuckoo" knockout administered by the polite and modest genial manager of the "Co-Op." His name should be inscribed on Coleman's role of fame for ridding the town of a gang which has caused nervous nights to many store-keepers.

**CREATIVE** effort helps the individual to become of greater service to others. Men who create business, create jobs; merchants constantly striving by progressive methods to develop their business increase the general activity of the town. Every business shares in the combined benefits of progressive men's efforts. Every worthwhile community organization is an asset. Service clubs, fraternal and church organizations play a commendable part in community life. Who wants to be an "oyster" living within a tightly closed shell?

### Canadian Pacific Announces Bargain Fares To Coast.

Teachers and students on Easter holidays, and those taking early Spring vacations, will rejoice in the announcement of bargain fares to the Pacific Coast by Mr. McKinnon, local Canadian Pacific agent.

Tickets will be on sale April 3 to 11, inclusive, with 21 days return limit, and will permit stop-over at Banff, Nelson and stations west. A feature of these fares will be the privilege of tourist or standard sleepers at slightly higher rate and usual berth charge. The special cent a mile fare good in coaches will also be available.

From present indications there will be a record travel and those contemplating the trip are advised to get in touch with Mr. McKinnon as early as possible.

A special train was run from Kimberley to Nelson when the Dynamiters played against Prince Albert Mimos in the first game of the play-off series. About 500 travelled from Kimberley and intermediate points.

Mary Hoyle celebrated her sixteenth birthday at her home on Wednesday evening. About seventeen guests were present.

# Famous Romilly Boy Singers Next Tuesday

## Coleman Community Hall

Return Engagement Here March 31

Completing their tour of the Pacific coast cities south to California, the Romilly Boy Singers will appear in the Community hall on the above date. On completion of their Canadian tour, the boys will return to Wales. Their tour commenced in Montreal last October, appearing in the large cities of the East before commencing their western tour. Many from the Pass towns who did not hear them in January, have expressed their intention of attending this forthcoming concert. Reserved seats may be booked at J. M. Allan's, telephone 32.

## The Churches

### ST. ALBAN'S CHURCH NOTES

Next Sunday is the 5th in Lent. The services will be as follows: 12 30 p.m. Sunday school. 7 p.m. Evensong and sermon. There will be a short service and bible study in the Parish hall on Friday at 7.30 p.m.

### THE SALVATION ARMY

Mr. Dutton and orchestra of Frank will hear at the Salvation Army meetings on Sunday. Big attendance at the hall last Sunday, when the Fernie Melody Makers were here, necessitated additional seats to accommodate the packed house.

### UNITED CHURCH

Sunday, April 5, at the evening service, a special meeting of the congregation of St. Paul's United church will be held for the purpose of deciding on a new minister. Every member and adherent is cordially invited to be present.

### Junior Football Club Organizes

The junior football club held its first meeting of the season on Monday, March 23 when the election of officers took place. The officers elected for 1936 are: president, A. Walker; vice pres. and coach, T. Hihbert; sec. treasurer, R. Spillers; trainer, R. Campbell.

In an effort to raise funds, the juniors are sponsoring a dance in the Italian hall, Friday, April 10. Bear this date in mind and look for later advertising regarding the above.

Tickets can be purchased from committee or from the players from April 4 onward.

### Another Arrest Made

Ken Deagan, aged 19, resident of East Coleman, has been remanded for eight days on a charge by the R. C. M. P., for having in his possession stolen property. The police are continuing investigations into the hold-up and various robberies of recent weeks.

### Friend of Joe Penner

Another instance of the devotion and loyalty of Mrs. Bruce's poultry to their mistress.—A young drake which she had sent in a sack to a neighbor's several miles away was found next day waddling its weary way nearly back again to its old happy home.—Pincher Creek Echo

Local weekly newspapers reflect the enterprise of the towns in which they are published. They indicate if a town is up and coming, or other.

THE MANAGEMENT of the Romilly Boy Choir would appreciate it if Welsh families would accommodate two boys each while here next Tuesday. There are twelve boys and in most places visited the boys have been accommodated in this way. Names of those who would be kind enough to extend this courtesy may be left at The Journal office.

wise. Last week a newspaper in a Saskatchewan town of 500 people published its own obituary with the statement that the local merchants thought the publisher could live and keep the town on the map with ten dollars worth of advertising, judging from their support, or lack of it. When conditions reach that stage, there is only one thing to do; pack up and hie to more lucrative fields. Fortunately Coleman is not in that class. Progressive business men will seize on opportunities to improve their business and to build goodwill among their customers by taking an active part in community affairs. Remember the Rotary slogan: "He profits most who serves best."

## ASK YOUR DOCTOR FIRST, MOTHER

Before You Give Your Child an Unknown Remedy to Take

Every day, unthinkingly, mothers take the advice of unqualified persons—instead of their doctors—on remedies for their children.

If they knew what the scientists know, they would never take this chance.

### Doctors Say PHILLIPS' For Your Child

When it comes to the frequently-used "milk of magnesia," doctors, for over 50 years, have said "PHILLIPS' Milk of Magnesia"—the safe remedy for your child.

Remember this—And Always Say "Phillips' Milk of Magnesia." Your child deserves it, for your own peace of mind, see that you get it—Genuine Phillips' Milk of Magnesia.

Also in Tablet Form: Phillips' Milk of Magnesia Tablets are now on sale at all stores everywhere. Each tin contains the equivalent of a teaspoonful of Genuine Phillips' Milk of Magnesia.

MADE IN CANADA

## WORLD HAPPENINGS BRIEFLY TOLD

Given an average growing season, the prairie provinces will produce a 400,000,000-bushel wheat crop this year, W. M. Neal, vice-president of western lines of the Canadian Pacific Railway, said at Vancouver.

A special House committee of 28 members has been established to investigate problems relating to pensions and returned soldiers. Pension Minister Power moved the necessary motion.

About 32,400,000 acres have been sown to wheat in British India this year, the International Institute of Agriculture estimated. The area under cultivation is slightly smaller than that of last year.

Figures of King George and Queen Mary are to be included in a stained-glass window in the northwest transept of Liverpool cathedral, the window being to commemorate the cathedral's consecration.

Divorces granted in Canada during 1935 showed a substantial increase compared with the previous year, according to a report issued by the Dominion bureau of statistics.

Labor Minister Rogers announced in the House of Commons no more men were being admitted to relief camps, in line with the government's determination to close them as soon as possible.

Falling overboard from a launch, Seaman Ernest Brown of the Canadian destroyer Saguenay was drowned at Kingston, Jamaica, where the Saguenay had gone with the British West Indies squadron, on its annual spring cruise.

### Aid By Novel Method

Italians Sending Letters Home Engraved On Copper

Italians living in the United States have found a novel method of aiding the mother country in its battle against League of Nations sanctions.

A large number of letters, the writing engraved on paper-like sheets of copper inserted in an ordinary envelope, have been received at Naples and in other Italian ports. The copper can be used in manufacture of munitions.

Wireless telephone service has been established between the Chinese cities of Canton and Hankow.

### China's First Girl Flyer

Will Astonish Her Own Country With Unusual Stunts

Acclaim awaited the return to China of the pretty 23-year-old Miss Ya Ching-lee, fresh from her flying exploits in the United States. She completed her course at the Boeing School of Aeronautics and plans to continue her work in her own country.

Miss Ya, with reluctance told how she unwittingly became a member of the Caterpillar Club. Flying over San Francisco Bay with her instructor, she was told to take the machine into a dizzy barrel roll.

At a critical moment of the manoeuvre her safety belt came unstuck and in a second she was hurtling toward the water. Miss Ya's presence of mind came to her rescue and she pulled the rip cord of her parachute to float lightly to the bay whence she was picked up by a naval vessel.

The young aviatrix is also well versed in blind flying, having made a successful test flight from Oakland to Reno. She plans to tour her native land and demonstrate some of the tricks of the trade she picked up in America. Naturally she will be received open-mouthed by her people who have never seen her air stunts, not to mention one of their own girls at the control of what in plain English is a "ricksha go topside."

### New Type Of Camera Eye

Takes The Uncertainty Out Of Flashlight Photography

A new type of camera eye which takes the main uncertainty out of flashlight photography was announced by H. M. Biele, chief engineer of the Associated Press. It was worked out in the P. research and development laboratory.

The photoelectric cell, operating as a real eye, is set in the photographer's reflector behind the flash bulb. The cell sees the flash from behind.

It sees what no living eye can and what mechanical devices previously have missed, the building up of the flash. On the average, five thousandths of a second are required from the beginning of the burning flash until its light reaches a peak.

The photoelectric cell watches this rising light, and sets off an electromagnet trigger which opens the camera shutter at precisely the thousandth of a second of brightest light.

In one thousand trials the new eye has never missed once.

### Ancient Mine Discovered

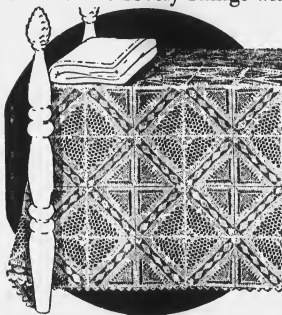

A copper mine which is said to be 3,000 years old has been discovered in Kielce, Poland. The works are in a wonderful state of preservation, and implements and tools have been found. Engravings of the planetary system and inscriptions decorate many of the galleries.

### Progress Is Slow

Scientists in Germany and Italy have recently produced materials which are claimed to be good substitutes for wool. The production and consumption of these, however, has made very slow progress and little or no effect on the world trade in natural wool has been noted.

An English church built in 1380 has a wall painting which shows bobbed hair.

### You'll Make Lovely Things With This

Household Arts by Alice Brooks

Repeat An Easily Knitted Square for Household Linens

### PATTERN 5557

Don't long for "helium"—make them yourself! All you have to do is to knit and repeat a simple square, whose pattern you'll learn by heart in almost no time. They'll soon be rolling off your needles at a great rate, for you use string for these, and string knits up very quickly. When you've a quantity laid by, join them for a handsome bedspread, dinner or tea cloth, scarf or pillow. Only four squares are needed to complete the main motif of this design.

In pattern 5557 you will find complete instructions for making the square shown; an illustration of it and of the stitches needed; material requirements.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

### Governor-General's Medals

Bronze Medals For Competition In Saskatchewan Schools

The Hon. J. W. Estey, Minister of Education for Saskatchewan, announced that His Excellency, Lord Tweedsmuir, Governor-General of Canada, has graciously signified his intention of following the practice set by his predecessors of donating each year a number of bronze medals for competition in the schools of Saskatchewan.

The recommendation of the minister respecting the distribution of the medals for the year ending June 30, 1936, has been approved by His Excellency and is as follows:

(a) Two medals to be awarded in each of the cities of Regina, Saskatoon and Moose Jaw, one to the boy and one to the girl from the collegiate institutes or technical schools therein, obtaining the highest standing at the complete grade twelve departmental examinations;

(b) Two medals to be awarded, one to the boy and one to the girl obtaining the highest standing of all the candidates at the complete grade twelve departmental examination from the collegiate institutes in the other cities of the province;

(c) One medal to be awarded to each of the four highest ranking boys and each of the four highest ranking girls at the complete grade twelve departmental examination from town schools;

Provided that not more than one boy and not more than one girl in any school in (c) may qualify for a medal;

(d) Two medals to be awarded, one to the boy and one to the girl, obtaining the highest standing at the complete grade twelve examination from village and rural schools in each of four zones into which the province is divided by the 3rd meridian line and the line between townships 24 and 25.

### Rare Surgical Operation

Child Recovering After Misplaced Organ Adjusted By Surgeon

As the result of a rare surgical operation, Gary Roether, 2½ years old, born with his internal organs in his left lung, was recovering at Oakland, California.

A surgeon, who requested his name be withheld, found to his astonishment the child had been breathing with only one lung since birth.

Gary's organs, including his stomach, spleen and intestines, were in his left lung. The lung was unable to expand and the heart also had been pushed over to the right side.

The surgeon carefully cut away three ribs and performed the delicate operation, using fascia or connective tissue from the mother's body.

### Third Largest Grain Crop

Barley is Canada's third largest grain crop. It follows wheat and oats, but the barley production is usually less than one-quarter that of wheat. Barley contains more starch and more crude fibre than wheat, but a bushel of barley weighs only 48 pounds as against 60 of wheat. The straw of wheat and of barley are similar in composition.

Tommy was listening to some of his sailor uncle's adventures.

"You see, sonny, I always believe in fighting an enemy with his own weapons," said his uncle.

"Really?" gasped Tommy. "How long does it take you to sting a wasp?"

English prisons house 12,000 men and only 600 women.

### SUNDAY SCHOOL LESSON

### Yields Huge Profit

MARCH 29

JESUS EXPLAINS THE KINGDOM

Golden text: They shall come from the east and west, and from the north and south, and shall sit down in the kingdom of God. Luke 13:29.

Lesson: Luke 13.

Devotional reading: Isaiah 62:1-7.

Explanations And Comments

The Expansive Power of the Kingdom, Luke 13:18, 19. He said therefore: "This 'therefore' connects the parable with the healing on the Sabbath, just narrated by Luke. At least with verse 10, the teaching in the synagogue. 'Unto what is the kingdom of God like?' Jesus questioned, 'and whereunto shall I liken it?' 'It is like unto a grain of mustard seed, which a man took, and sowed in his own garden.' In the interpretation of the parable, it is Israel, God's own people, where the seed was first planted. 'And it grew, and became a tree.' Ordinarily, butterflies are not very large, but in the northern part of New Guinea there are giant butterflies whose wings measure eleven and a half feet in expanse, and are hunted by the natives with bow and arrow; so the mustard plant is not usually of great size, but in Palestine it sometimes attains a height of ten or twelve feet. 'And the birds of the heaven lodged in the branches thereof.'

The Pervasive Influence of the Kingdom, Luke 13:20, 21. Next, Jesus compared the kingdom to leaven, which a woman hid in three measures of meal, till it was all leavened. The word leaven is derived from the French *levure*, which means anything which causes fermentation, especially a portion of fermenting dough. A measure of leaven nearly a peck and a half (Revised Version), and three measures was the usual amount for one baking. Gen. 18:5. 'Till it was all leavened.' See First Corinthians 5:6; Galatians 5:9. 'The thoroughness of the leaven's work is most compelling. The word of the Kingdom will not fall till the whole world is leavened by it. There is a consummation, a victory, when God shall be in all' (R. F. A. Horton).

The Parable Warning Against False Hopes, Luke 13:22-30. Jesus continued on his way to Jerusalem, preaching as he went in the cities and villages which he passed. 'Lord, are there few that are saved?' someone questioned him on that festive scene of his own salvation simply because he was a Jew, and expected Jesus to answer that Israel, and Israel only would be saved.

Jesus did not answer the question, but warned the man against vain confidence, but he look to himself, and think about his own entrance into the Kingdom rather than speculate about the fate of others. 'Strive to enter in, for many will seek to enter in, and shall not be able,' said the words of Jesus. Strive, literally, agonize, strain every nerve.

Temporary Permanency Two permanent waves a year, properly applied, may be had without injury to the hair or scalp, say the doctors. No wonder foreigners have such a difficult time understanding 'your language. Here they are told that if a wave is to be 'permanent,' women must have it done twice a year!

British Broadcasting Company Has Surplus After Expenses Paid

Of every \$2.50 paid by listeners in Britain for radio licenses only \$1.30 is spent on the broadcasting service. The rest goes to the treasury, the post-office—and the income tax collector.

This fact is revealed in the B.B.C.'s report for 1935, just issued. It contains, for the first time, comprehensive details of its vast expenditure.

Of the \$18,400,000 received in license fees the post-office and treasury took \$8,205,000. B.B.C. publications showed a surprising rise in profits of \$2,107,880.

This may seem an enormous sum just for putting music and talks on the air, but Sir John Reith and the governors found themselves at the end of the year with a balance of only \$154,585 to carry forward. Over the whole year the B.B.C. handed to charities the record sum \$557,340.

### May Transpose Muscles

Successful Results To Correct Cross-Eyes Are Reported

Scientists surveyed the results of more than a year of experimentation and held forth definite hope that surgeons some day may be able to transpose muscles of the human eye and correct permanently such disorders as cross-eyes, eye paralysis and other ocular ailments.

Success of laboratory experiments along these lines was announced by Dr. J. M. D. Olmstead, professor of physiology at University of California.

Dr. Olmstead told how, in his experiments among eye muscles of dogs and cats were transposed to assume the functions of weakened muscles whose failure to function properly caused a variety of eye disorders.

An old country woman going into a large town saw, for the first time, an electric tram.

"Well," she said, in her amazement, "I've seen 'em worked by horses, and I've seen 'em run by engines, but I never seen 'em driven by a clothes-prop before."

"Have you any complaints to make?" asked the Prison Governor. "Yes," replied the prisoner, "the prison walls are not built to scale."

A Franciscan missionary was in the first to mention petroleum in America, the instance being a letter published in 1632. 2143

### For King George Memorial

#### Suggestions Given To Meeting By Archbishop Of Canterbury

A memorial to King George should take the form of a statue of his late majesty in London and a philanthropic scheme which would benefit the whole country.

This decision was reached at an influential meeting at the Mansion House, London, convened by the lord mayor at the request of Prime Minister Baldwin. The Archbishop of Canterbury proposed the memorial should take such a form.

### HOW'S YOUR STOMACH?

YOU lose vital nerve force if you allow your stomach to distress you. Acid stomach, indigestion, gas or biliousness, and constipation cause the blood to be poisoned and will eventually destroy health and nerve force. This is what Clarence House of 31 Main St., St. Catharines, Ont., said. "I had no pep, had to force myself to eat, and after eating I would feel a bit better. After using Dr. King's Golden Medical Discovery and it opened up my system so that I feel like a different man. The 'Discovery' helped to drive away the stomach distress and gave me an appetite. Now size, tablets 50c, liquid \$1.00 and \$1.35.

## FLEMING'S FOLLY

— BY —  
LAWRENCE A. KEATINGE

### SYNOPSIS

The story opens with Link Fleming addressing a meeting of Boone County cattlemen, called together with the object of forming an irrigation company.

Roper Kilgo, the boss of the Rawhide and nearby ranges, who seemed to approve the plan, but was really opposed to it, had forced Soak Torney, a derelict mining engineer, whom Kilgo knew would be called upon to give his expert opinion in favor of the scheme, to reverse his earlier endorsement, and declare that irrigation in Boone county so far as Fleming's plan was concerned was only a new-fangled way to waste money.

The meeting terminates, but Buzz Hamilton and his sister, Helen, Link and Kilgo stay behind and Helen asks Fleming questions about his irrigation plan. This angers Buzz, who accuses Fleming of trying to influence his sister and, as he asserts, ruin his "spread." Buzz shoots at Fleming, an uncontrollable fit of anger, but Buster Townsend, Link's foe, is shot in the stomach, and Fleming is unharmed. Buzz is arrested and sentenced to three years' imprisonment.

Helen and Fleming form a partnership to provide irrigation for their own properties.

Fleming goes home and studies the plans drawn by Torney to learn whether they could be adapted to a smaller scheme suitable for his and Helen's land, and is satisfied it could be done. Finding that he lights the fire and there is an explosion that wrecks the house, burns it and the plans and renders him unconscious. He is rescued from the blaze by an employee.

Helen and Link ride to Rawhide for supplies and to obtain funds to carry out the dam project. They meet Roper, who greets Helen and offers to shop with her. Link goes to see the Sheriff, who tells him Buzz Hamilton has been paroled, and would arrive on the incoming stage, but that he thinks Link has made a mistake in getting Buzz released.

(Now Go On With The Story)

### CHAPTER IX. Continued

A muscle quivered in Hamilton's cheek as again he failed to hold the rancher's steady gaze and shifted with some uneasiness in his chair. He looked at beefy Roper Kilgo on his right, thence at tall, red-headed Jackpot Mell. Following his eyes, Link felt keen apprehension that things were going all wrong for Buzz had failed, among the very companions he should have avoided.

"Wal, Link," Kilgo boomed bolsterously, "I hear you're borrowed up to yore neck for that crazy irrigation scheme. Otto Pieper turned yuh down, o' course."

The statement came in the form of a question, Fleming summoned a careless grin. "If yuh know, Roper, why ask me?"

"Course he turned yuh down," growled the lynx-eyed Mell. "So yuh busted, eh? Well, yuh busted six high!" he jibed in grating tones. "That's tough, ain't it, boys? It's just too bad!"

Fleming's eyes bared. "Well, Jackpot," he returned in a controlled tone, "I'd sure know better than to ask you for money if I did need it."

"If yuh did need it? Say, if yuh don't need it, I'm a cross-eyed buzzard!"

"Then it might interest you to know," Link retorted crisply, "that I don't need money right now."

Mell started, his face coloring with wrath. For the nuance of his own speech had been twisted to make him a "cross-eyed buzzard."

"Yuh callin' me names?" he rasped dourly.

The Star Loop owner checked restful anger that welled up his throat, his face hot. "I called you nothing." Turning to Buzz, he placed a comradely hand on his shoulder. "Shall we be on our way, oldtimer? Helen will be tickled when you say that yuh hoss an' yuh voice!" he cried in a quavering voice of yore arms.

The taut silence that answered him was disconcerting. Of a sudden Hamilton sent his chair scraping backward as he rose. The prison pallor of his haggard countenance seemed to assume a bluish shade against the flashing in the newsmen's eyes. His whole thin frame trembled with rage that that fought for expression and he shook a skinny fist onto yore Fleming's nose.

"I'm onto yore game, you low-down skunk!" he cried in a quavering voice of almost maniacal fury. "I'm onto yore tricks, getting me paroled. Talkin' my sister into throwin' away our Triple H on that lousy irrigation scheme only a fool'd take on. I'm onto you, Fleming! And by Gawd, I won't stand for it. Say that!"

The Star Loop owner stepped back, his jaw dropping in genuine amazement. "What are you talkin' about, Buzz?" he demanded. "Why,

## The Man Who Knows

Whether the Remedy  
You are taking for  
Headaches, Neuralgia  
or Rheumatism Pains  
is SAFE is Your Doctor.  
Ask Him

Don't Entrust Your  
Own or Your Family's  
Well-Being to Unknown  
Preparations

BEFORE you take any preparation you don't know all about, for the relief of headaches, or the pains of rheumatism, neuritis or neuralgia, ask your doctor what he thinks about it—in comparison with "Aspirin."

We say this because, before the discovery of "Aspirin," most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart. And the discovery of "Aspirin" largely changed medical practice.

Countless thousands of people who have taken "Aspirin" year in and out without ill effect, have proved that the medical findings about its safety were correct.

Remember this: "Aspirin" is rated among the fastest methods yet discovered for the relief of headaches and all common pains... and safe for the average person to take regularly.

"Aspirin" Tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited. Look for the name Bayer and the form of a cross on every tablet.

## Demand and Get "ASPRIN"

say, I—" He became conscious of the smell of whisky, raw whiskey and plenty of it, and he scowled, scrutinizing the man's contorted face.

Roper Kilgo and his cronies had deliberately, maliciously stuffed Buzz with misinformation about the Silver Creek project. Why? The answer came instantly. The florid Kilgo was eaten with apprehension lest Link, after all, make a success of the irrigation project on which Roper had betrayed him at that Trailend Hotel meeting last fall—and use the very land Kilgo had lost in a poker game to prove what water would do.

Also, there was Roper's attentiveness to Helen Hamilton. His clumsy compliments, his eyes following every movement with an absorbed relish Link did not like to see. Before her return from Ohio, Roper considered himself the only contender of importance for her hand. Now—and the thought made Link's pulse speed—she seemed to favor him.

"Got me paroled to make a hit with Helen—yuh know darned well I ain't allowed to manage the spread!" Eyes aflame, Buzz advanced threateningly. "While yuh keep me from my rights, yuh soft soap my sister to beat us out of everything we own. By God," he cried, "I'll kill yuh!"

With quickness astonishing in one of his prison-worn appearance, the maddened man hurled himself forward, jabbing with open hands to choke his victim.

Fleming was caught off guard. Hard fingers sank cruelly into the flesh of his neck. Instinct made him seek the sixgun on his hip; but he desisted, and with both strong hands tore away the other's fingers. His grasp slid to Buzz's wrist and with a quick, powerful wrench he sent him staggering. Hamilton slipped, fell, and went crashing into chairs grouped around a vacant card table.

Roper Kilgo, Jackpot Mell, and several other men stiffened angrily. The two cronies stood alert to snatch their Colts, glaring. "Let that kid alone!" snarled Mell, a dangerous light in his beady eyes.

## young MOTHERS

Take no chances. Children's colds are best treated without "dosing." At bedtime, just rub on VICKS VAPORUB.

PROVED BY 2 GENERATIONS

Link stood panting, feeling of his neck. He did not fear their fortynines despite the saloon owners' reputation as a killer. His gaze travelled over the trio, took in three or four other tense patrons of the Half Moon, and roved to Gus, the pink-faced bartender, whose chin-blue eyes were dilated in astonishment.

Fleming strode to Hamilton and helped him to his feet. "I'm shore sorry, Buzz," he said in a low, vibrant tone. "The fact is, you got me all wrong. Silver Creek Dam is going to help your spread as much as mine. Helen ain't in danger from me. You aren't either."

The other jerked himself free. He parted wheezingly while he reached for a whiskey bottle and poured a stiff drink. Link's impulse was to stop him, but such a move would be certain to invite fresh wrath. He stood motionless with indecision.

Roper planted himself squarely before Fleming. "I advise yuh to clear outta here pronto. Guess yuh'll claim yuh don't know I figured to get Buzz pardoned so he'd have his legal rights? S'pose you didn't hurry up and head me off while yuh make a hit with Helen on this parole stuff that don't do Buzz no good at all?"

The Star Loop owner's jaw dropped. "You get Buzz pardoned?"

Roper put his arm around Hamilton's shoulders in a brotherly gesture. "Think I'll stand by idle while yuh work yore game on a helpless gal? I was goin' to fix it with the Governor so's Buzz could be here to protect his property!"

Link stiffened. "Helen Hamilton came in with me of her own free will. There's no game being worked, and you know it. That dam in Boone County look like thirty cents yours included, Kilgo?"

His eye narrowed. "Yeah? Let me tell yuh darned near flooded the cut-off. If that water comes on my spread, I'll sue yuh for damages!"

This was indeed a possibility, of which Link was uneasily aware. It was part of his reason for being anxious to complete the dam within the next two or three days.

"It's a crazy scheme," scoffed Jackpot Mell. "Tryin' to irrigate no-good land! Fleming's Folly—no good! Land! Fleming's Folly—yeah, that's a good name. Not a man in Boone County believes in it. How about you, Seth?" he demanded of Howland, the veteran Texas trail driver. "Is Fleming's Folly goin' to be a success?"

"Wal, no, I don't reckon 'tis," Howland replied candidly.

"You, Benson?"

Mat scratched his ear. "Don't like to discourage yuh, Link, but it shore looks to me like yore plumb loco, pourin' all yore money in a loney proposition like that."

Other men expressed their lack of faith, but Fleming had heard all this so often before that he paid little heed. His eyes were on young Hamilton, gulping down drink after drink of whiskey. She's plumb anxious to see you, son!

Warned to the sentimental stage by figure, Hamilton seemed to be about to utter words of shame, flung himself before all these men prompted him to move slowly toward the swinging doors. Link waited until he thrust them aside; then the rancher sent a cold, defiant look around the circle of faces and started after him.

As they stepped onto the brief stage that fronted the Half Moon, swift-thudding hoofs in velvet dust made both men look up. Surprise swept over Fleming's face as he saw the girl. Helen, standing at the chin strap about flying in the breeze, haul her lathered pinto to its haunches in a skidding stop, and flung excitedly from the saddle.

"Link!" she wailed, running toward him. "Oh, our eight hundred dollars—I've been robbed!"

### Marked The Day

Aberdeen is "out" of the Scottish Cup football competition. This will be a sore disappointment for the Aberdeenians, which recalls the story of the Aberdeen woman who reminded her husband of their twenty-fifth wedding anniversary. "Aye, I mind the day well," he said, thoughtfully. "Aberdeen beat Glasgow three to nothing."

Forest fires not only destroy valuable timber direct but leave wounds and scars on trees, where decay soon sets in.

### Microphone Oratory

#### Radio Has Placed New Demand On Speech Makers

The radio, as every one knows, has placed a new demand upon political speakers. The old-fashioned campaign oration no longer will do. In its place must come the kind of talk which is calculated not to stir up mass excitement but to convince men and women in their homes. To do that two things are required. One is the right manner, which is to say, the right use of voice and inflection. The other is the right content and organization of the speech itself.

Of the two the manner is probably the easier to acquire. It can be learned if the speaker is willing to subject himself to the discipline of rehearsal and criticism. The content presents the harder problem. Men for many years have been accustomed to addressing public meetings cannot easily abandon the technique of crowd appeal as they have learned it.

Spellbinding requires, more than anything else, a proper spacing of climaxes, building up to a super-climax at the end. What came between the high spots was of relatively small importance. (That is why the reading of such speeches is generally disappointing. The reader marvels that anything so thin and loosely constructed could have proved effective.) The radio speaker has to take a different line. He must prepare an address—it could almost be called an essay—which will march smoothly and steadily from beginning to end. It has its climaxes, but they are relatively quiet ones, and of course, cannot depend for their success upon excitement induced in the listeners by waving arms, flashing eyes, or cheering—Chicago Tribune.

### Novel Postal Service

#### Rocket Releases Parachute With Metal Box Carrying Letters

Rocket societies are being organized in all leading countries of the world according to the journal of the British Interplanetary Society, which has just been published in London.

American and British societies are well known. Germany has a thousand members. Austria has a regular rocket mail service which passes over a high mountain between Rook Troch and Semirach. The rockets, shot off at an angle of 65 degrees, fall, when at their greatest height, a parachute carrying a metal box containing 200 to 300 letters. This novel postal service has its own postage stamps. From Calcutta, India, a rocketeer reports a rocket shot by him over the Damodar River containing 200 letters and two live birds, the first successful transportation by rocket of living things.

### Little Helps For This Week

I will lift up my eyes unto the hills from when cometh my help. Psalm 121:1.

I look to Thee in every need, And never look in vain; I feel Thy touch, Eternal Love, And all is well again; The thought of Thee is mightier far Than sin and pain and sorrow are.

How can you live sweetly amid the vexations, the irritating things, the multitude of little worries and frets that lie along your way and which you cannot evade? You cannot at present change your surroundings. Whatever kind of life you are to live must be lived amid the experience in which you are now moving. Here you must win your victories or face your defeats. No restlessness or discontent can change your lot. Others may live among different surroundings, but here are yours. If you make up your mind to accept what you cannot alter, you can live a beautiful life in the midst of your present circumstances by striving to realize a state of inward happiness independent of them.

### Making Bid For Visitors

#### Manchoukuo Best Place To View Eclipse In June

Manchoukuo is making a bid for those who wish to view the 1936 eclipse. "Manchoukuo is the best place in the world from which to view the total eclipse visible on June 18," says Dr. Issei Yamamoto, the famous astronomical expert of Kyoto Imperial University. According to the professor the line of the eclipse will rise from the Mediterranean Sea and advance into Siberia, passing through part of Turkey to the Caucasus and Central Asia, and thence to Lake Balkal along the Siberian railway line. Then it will again advance into Siberia along the Amur river and disappear in the Northern Pacific horizon, passing over Hak-kaido. The eclipse will be visible for about two minutes and 30 seconds. The government will assist visitors.

### Playing Safe

"See here," said the Indian inspector, "it is a violation of the law to have more than one wife, and the law must be obeyed. When you get back home you tell all of your wives, except one, that they can no longer look upon you as their husband."

"You tell 'em," suggested the Indian, after a moment's reflection.

"You can now sit comfortably in a chair at home and chat to a friend in Australia without raising your voice," says a writer. In fact, all you have to raise is the money.

## TOWN OF COLEMAN

### re Payment of Town Taxes

OWING to changes in the act regarding Supplementary Revenue Tax, the town is unable to send out the Tax Notices at the usual time. However, in order that ratepayers may take advantage of the usual

### TEN PER CENT. DISCOUNT,

taxes based on 1935 assessment may be paid, and later those doing so will be advised of the amount of Supplementary Tax, as soon as the new act is passed by the Legislature

JAMES FORD, Secretary Treasurer.

## Local News

Miss Margaret Jackson is a patient in Coleman hospital.

Temperature registered at the International mine on Tuesday morning was 5 below zero.

Mrs. B. F. Blais of Lethbridge, former resident of Frank, well known among earlier residents, was the guest of Mrs. C. F. Dunlop and daughter Winnifred for several days.

Rev. Father Florian was the guest of Rev. J. T. Dunbar at the Catholic rectory, during his visit here on a special mission to the Slovak people of the Pass towns. Father Florian is out from Czecho-Slovakia and will remain in Canada for some time.

Editor Bartlett in last week's issue of The Enterprise had a satiric fling at a would-be artist's conception of a 1936 model of a well-known make of automobile. He reproduced it on his front page, causing many a smile. It should be among the relics that Mr. Henry Ford delights in collecting.

George M. Bell, president of the Albertan Publishers Limited, who died last week, was the son of the late Hon. George A. Bell, at one time provincial member for Estevan, and later chairman of the Local Government Board of Saskatchewan. For several years the family home was in Estevan.

Hymns played by the Salvation Army group from Fernie, together with Lieutenants Fitch and Pierce of the local corps, were enjoyed by the hospital patients on Sunday afternoon. The local officers are carrying on much appreciated work, especially among the younger people, who are quite eager to attend the services and Sunday school.

Mr. J. E. Gillis of Blairmore is one of the welcoming committee to meet the Most Rev. Francis P. Carroll, newly appointed bishop of the Roman Catholic diocese of Calgary. He comes from Toronto, where he was president of St. Augustine's Seminary, and will be met by a distinguished committee representative of all parts of the Diocese and the province. Mr. Gillis left for Calgary on Wednesday.

The funeral service of 4-year old Tillie Kovenko, daughter of Mr. and Mrs. Sam Kovenko of East Coleman, who died on March 20, was held at the Holy Ghost church on Sunday afternoon. Rev. Father Dunbar conducting the service. Pallbearers were Peter Liska, John Salus and the Ondrick brothers. Deep sympathy is expressed for the parents, who have lived here for several years.

Miss Ruth Morrison, district secretary of the Girl Guides, attended a provincial convention in Edmonton, returning on Wednesday morning. The Guides have made remarkable progress in the past few years, and in this district a group of capable officers have developed efficient companies of Guides. The district commissioner, Mrs. R. P. Borden, is at present in London, England.

### NOTICE OF PREPARATION OF ASSESSMENT ROLL

Town of Coleman Assessment Roll for Year 1936

Notice is hereby given that the assessment roll of the Town of Coleman for the year 1936 has been prepared and is now open for inspection at the office of the Secretary-Treasurer from ten o'clock in the forenoon to four o'clock in the afternoon on every day which is not a public holiday, except Saturday, and on that day from 10 o'clock in the forenoon until two o'clock in the afternoon, and that any person who desires to object to the entry of his name or that of any other person upon the said roll or to the assessment of any property or to the assessed value placed upon any property, must within thirty days after the date of this notice lodge a complaint in writing with the Secretary-Treasurer.

This means, with regards to property, any assessed value which has been changed.

Dated this 16th day of March, 1936.  
JAMES FORD, Secretary-Treasurer.

## E. O. DUKE PROMISED TO TAKE UP MATTER POLICE PROTECTION

With Rev. Roy Taylor, Taking Up Matter With Authorities in Edmonton

The matter of police protection having been the subject of considerable adverse comment, the president of the Board of Trade telephoned E. O. Duke, M.L.A., for Rocky Mountain, pointing out the uneven distribution of mounted police in this area. He stated he had already been in conversation with Rev. Roy Taylor, M.L.A., who was interviewed over the week-end individually by the mayor and the president of the Board of Trade.

He agreed that Coleman certainly was entitled to more adequate police protection, and he would immediately take the matter up with the attorney-general, Hon. J. W. Hughes, and the departments responsible for supervising police work. With Constable Antle sick since Sunday, and an apparent lack of co-operation between the town and mounted police, considerable criticism has arisen.

In reply to enquiries concerning the armed hold-up on Saturday, The Journal was politely informed it was a town case, not a mounted police case. Numerous robberies covering more than a year remaining unsolved, has caused more than ordinary concern regarding the matter of police protection.

## ALEX. MORRISON'S CAR STOLEN EARLY SATURDAY MORNING—FOUND LATER

To see your car driven off almost under your nose is an experience sufficient to fill one with rage at the audacity of car thieves. A new 1936 Pontiac standing outside of Alex. Morrison's home on Third street was stolen at 4:55 a.m. Saturday, March 21.

Mrs. Morrison awoke and heard a noise as if someone was trying to start the car. She almost immediately saw it drive off in an easterly direction, and awoke her husband. The police at Blairmore were immediately notified, and in about ten minutes after five were here. They met no cars on the road here, and the police at Crow's Nest were also warned to be on the lookout.

A Terraplane car, owned by Mr. Brink, of Lethbridge, was also standing outside the house, he having been visiting the Morrisons. His car has also been tampered with, but as it had an electric hand, it is probable those stealing the car were unacquainted with the working of it. Matches had been struck in the car, and there were footmarks in the snow on the running board. It was snowing quite heavily at the time, and though the tracks of the stolen car were followed for a little distance, they were soon obliterated by the snow.

Interviewed on Saturday morning, Mr. Morrison was under the impression the car did not get very far from the town, and stated it was possible whoever had stolen it was keeping it hidden.

The car was recovered with the wiring system damaged, in Grafton town before noon on Saturday.

The busy stores are those which send to their customers' living room the home newspaper containing the store's advertisements of products and prices. Through The Journal the thrifty housewife reads the store specials, and buys accordingly.

## MIS-SPELT WORD COMPETITION CREATES INTEREST

Blairmore Subscriber Writes Humorous Letter On Comedy of Errors

Of the replies received to our mis-spelt word competition, six discovered the intentionally mis-spelt word, which was NESTLES in Coleman Co-Op ad. It was intentionally mis-spelt NESTLES. In order to give the six a fair chance, the names were placed in a box

J. Shields, Local Dealer

and the first one drawn was awarded the dollar, which goes to W. H. Chappell, Blairmore.

Others naming the correct answer were Kathleen McLellan, Hilda Danyluk, Edith Ash, Thelma Williams, Violet Knowles.

There were various other replies, some discovering typographical errors. Another contestant chose Rowntree's in Leduc's ad, but this is correctly spelled.

One replying states: "When you are down with the flu, you can lay on your back, think about your own errors, look up other people's errors, and probably win a dollar." Incidentally he picked out quite a few unintentional errors, which were passed along to the composing staff for self-reproach. Proof-readers also should take notice.

The Journal appreciates the interest taken. To those unsuccessful contestants, we would say—Try Again—for next week there will be another chance to win a dollar.

"Life not death is in the saddle. Personality, identifiable, recognizable, the most precious thing we know, must share with all the rest. It will change but it will not disappear."—Geo. W. Coleman.
